Dixon, IL – The Illinois Department of Transportation announces today that weather permitting, construction work on Illinois Route 2 between Oregon and Byron will begin on Monday, May 15, 2017. Civil Constructors will be starting the project to rehabilitate the bridge over Silver Creek, by the golf course, three miles north of Oregon. The \$293,105 project is scheduled to be completed by the end of June.

Improvements to the bridge include replacing the expansion joints, making concrete repairs to the bridge deck, and placing a new concrete surface on the structure. Traffic will be restricted to one lane and controlled by temporary traffic signals as improvements are made to the bridge by working on one half of the structure at a time.

Drivers should be prepared to stop for vehicles waiting at the temporary traffic signals.

Please slow down and use extreme caution while driving through all work zones.
